Q7. What kinds of improvements are needed to improve conditions for walking and bicycling in Malone? (check all that apply)

1	thinner car lanes	Dec 13, 2012 3:51 PM
2	It is not safe enough to have my 13 year old ride there bike for Prospect Stree to the Rec Park or the YMCA	Dec 13, 2012 10:27 AM

4	Very happy with the rec park walk and the trails in our area	Dec 13, 2012 9:10 AM
5	the situation for walking is good, biking is not bad compared to riding in other locations. Traffic is light usually, maybe a little more bike signage and education to look out for bikers	Dec 13, 2012 8:55 AM
6	Most of the time I am walking at night - either my dog or walking/running for fitness purposes. I feel the lighting on Main Street and some surrounding streets very inadequate.	Dec 13, 2012 8:52 AM
7	Educating not only motorists, but pedestrians as to the proper (safe) way to walk/	Dec 9, 2012 7:21 PM
8	Raymond Street needs a continuous sidewalk from Elm to Main on the west side and the enourmous cedar hedge at the cross street part way down needs to be cut back significantly for better visibility. All lighted crossing need to have a pedestrian only phase and there need to be actual concequences for drivers who fail to yield	Dec 7, 2012 7:47 AM
9	Conditions have been perfect for the last 200 years. Don't change it. We cannot afford to lose valuable driving lanes, vehicle parking and cause more congestion than we already have. Roads and streets are not for walking. That is what we have sidewalks for and if they are not good enough improve ONLY that area of use. We can hardly drive through town now with all the traffic lights and inadequate travel lanes.	Nov 30, 2012 4:33 PM
10	THE LIGHTING ON MAIN ST!!! Its terrible.	Nov 20, 2012 5:12 PM
