RE:

176 Bare Hill Road

Dear Sirs and Madam:

As Lead Agency, the Town of Malone entered the enclosed Resolution adopting a Positive Declaration of Environmental Significance for the Proposed Community Solar Farm to be located at 176 Bare Hill Road under SEQRA.

Should you have any questions, please do not hesitate to contact Supervisor Stewart or the undersigned.

Very truly yours,

Nicole Guerin

SUPT. OF HIGHWAYS 518-483-2431

RESOLUTION NO. 325-2022 TOWN OF MALONE TOWN BOARD RESOLUTION ADOPTING A POSITIVE DECLARATION OF ENVIRONMENTAL SIGNIFICANCE FOR THE PROPOSED COMMUNITY SOLAR FARM TO BE LOCATED AT 176 BARE HILL ROAD UNDER SEQRA

WHEREAS, on or about September 3, 2021, Yellow 17, LLC filed an application for a Zoning Permit for the "Malone Solar Project" to be located at 176 Bare Hill Road in the Town of Malone (the "Proposed Action"), and

WHEREAS, as part of its application for a Zoning Permit, the Applicant submitted a Full Environmental Assessment Form dated August 26, 2021, and

WHEREAS, on or about February 11, 2022, Yellow 17, LLC filed a response to a deficiency letter for the Proposed Action with supplemental materials in support of its application, and

WHEREAS, on or about October 12, 2022, Yellow 17, LLC filed supplemental materials in support of its application, and

WHEREAS, the Town Board adopted a Resolution on May 11, 2022, which classified the project as a Type I Action under the New York State Environmental Quality Review Act ("SEQRA"), and

WHEREAS, the Town Board assumed lead agency status pursuant to 6 NYCRR 617.6(b)(1), and

WHEREAS, the Town Board conducted public hearings on the proposed project on June 22, 2022, and July 13, 2022, and

WHEREAS, the Town Board reviewed Part I of the FEAF prepared by the Applicant and prepared Parts 2 and 3 of the Full Environmental Assessment Form, and

WHEREAS, the Town Board has considered the content of the proposed application, Local Laws, the FEAF, communications from interested agencies, and

WHEREAS, the Town Board has considered any relevant public input, and

WHEREAS, the Town Board has thoroughly analyzed any relevant concerns discussed om the attached positive declaration of environmental significance, and has determined that significant adverse environmental impacts may result from the proposed project, and

WHEREAS, upon review of the FEAF and the relevant environmental criteria under SEQRA, the Town Board believes that the preparation of a Draft Environmental Impact Statement ("DEIS") is warranted.

NOW THEREFORE, the Town Board of the Town of Malone finds that the proposed project may have significant adverse impacts to the environment.

AND THEREFORE, the Town Board of the Town of Malone finds that the proposed project may have significant adverse glare impacts to adjoining and nearby properties; and

AND THEREFORE, the Town Board of the Town of Malone further issues as SEQRA Lead Agency, a positive declaration of environmental significance for the Proposed Action, finding there is a potential for at least one or more significantly adverse environmental impacts that may result from the Proposed Action, and incorporating by reference into this resolution the attached Positive Declaration contained in the FEAF Part 3; and

AND THEREFORE, that the Town Board, as Lead Agency, will require the preparation of a DEIS for the review of the proposed Action; and

AND THEREFORE, the Town Board hereby adopts the attached positive declaration of environmental significance and incorporates it herein.

AND THEREFORE, the Town Clerk is hereby directed to enter this resolution and the attached positive declaration of environmental significance in the minutes of this meeting.

AND THEREFORE, the Town Clerk is hereby directed to transmit this positive declaration and resolution to the appropriate agencies in accordance with the requirements of 6 NYCRR 617.12(b).

Motion offered by:

Supervisor Andrea Stewart

STATE OF NEW YORK COUNTY OF FRANKLIN

SS:

I, Nicole Guerin, Town Clerk of the Town of Malone, New York, do hereby certify that the foregoing resolution, #325-2022, was duly adopted at a Regular Meeting of the Malone Town Board, held on November 16, 2022; and the same is a true and complete copy of the record on file in the Office of the Town Clerk and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the corporate seal of said Town this 22nd day of November, 2022.

Nicole Guerin

Full Environmental Assessment Form Part 2 - Identification of Potential Project Impacts

	Agency Use Only [If applicable]
Project:	
Date:	
0.7	

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project. Impact on Land

Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1) If "Yes", answer questions a - j. If "No", move on to Section 2.	■N	NO YES	
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d	0	0
b. The proposed action may involve construction on slopes of 15% or greater.	E2f	0	
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a	п	0
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a	ם	0
 The proposed action may involve construction that continues for more than one year or in multiple phases. 	D1e	0	
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q	0	
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	B1i		
h. Other impacts:		0	0

2. Impact on Geological Features The proposed action may result in the modification or destruction of, or intaccess to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g) If "Yes", answer questions a - c. If "No", move on to Section 3.	hibit	10 []YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact ma occur
a. Identify the specific land form(s) attached:	E2g		0
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature:	E3c	0	0
c. Other impacts:			0
3. Impacts on Surface Water The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h) If "Yes", answer questions a - l. If "No", move on to Section 4.	· •N	D [YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h	0	
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b		0
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a	0	П
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h	0	П
 The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments. 	D2a, D2h	0	
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c		0
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d	0	0
n. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e	0	П
. The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.	E2h	0	0
The proposed action may involve the application of pesticides or herbicides in or around any water body.	D2q, E2h	0	0
The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.	D1a, D2d	0	

1. Other impacts:			
i. Other impacts:			0
4. Impact on groundwater The proposed action may result in new or additional use of ground water, o may have the potential to introduce contaminants to ground water or an aqu (See Part 1. h. The proposed action may result in the unearthing of solid or hazardous waste.	D2q, E1f	0	
 The proposed action may result in an increase in the rate of disposal, or processing, of solid waste. 	D2r, D2s	0	
The proposed action may result in excavation or other disturbance within 2000 feet of a site used for the disposal of solid or hazardous waste.	E1f, E1g E1h	п	0
The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.	E1f, E1g	0	
The proposed action may result in the release of contaminated leachate from the project site.	D2s, E1f, D2r		0
1. Other impacts:			

D2n

d. The proposed action may result in light shining onto adjoining properties.

17. Consistency with Community Plans			
The proposed action is not consistent with adopted land use plans. (See Part 1. C.1, C.2, and C.3.)	✓ N	io [YES
If "Yes", answer questions a - h. If "No", go to Section 18.	Relevant Part I Question(s)	No, or small impact may occur	Moderat to large impact ma
a. The proposed action's land use components may be different from, or in sharp contrast to, current surrounding land use pattern(s).	C2, C3, D1a E1a, E1b		
b. The proposed action will cause the permanent population of the city, town or village in which the project is located to grow by more than 5%.	; C2		
c. The proposed action is inconsistent with local land use plans or zoning regulations.	C2, C2, C3		
d. The proposed action is inconsistent with any County plans, or other regional land use plans.		0	0
e. The proposed action may cause a change in the density of development that is not supported by existing infrastructure or is distant from existing infrastructure.	C3, D1c, D1d, D1f, D1d, Elb		0
f. The proposed action is located in an area characterized by low density development that will require new or expanded public infrastructure.	C4, D2c, D2d D2j	0	
g. The proposed action may induce secondary development impacts (e.g., residential or commercial development not included in the proposed action)	C2a		0
h. Other:		0	0
18. Consistency with Community Character The proposed project is inconsistent with the existing community character. (See Part 1. C.2, C.3, D.2, E.3) If "Yes", answer questions a - g. If "No", proceed to Part 3.	₽ NO) <u></u>	YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may replace or eliminate existing facilities, structures, or areas of historic importance to the community.	E3e, E3f, E3g	В	
b. The proposed action may create a demand for additional community services (e.g. schools, police and fire)	C4		0
c. The proposed action may displace affordable or low-income housing in an area where there is a shortage of such housing.	C2, C3, D1f D1g, E1a	0	0
I. The proposed action may interfere with the use or enjoyment of officially recognized or designated public resources.	C2, E3	0	
. The proposed action is inconsistent with the predominant architectural scale and character.	C2, C3		
Proposed action is inconsistent with the character of the existing natural landscape.	C2, C3 E1a, E1b E2g, E2h	П	0
. Other impacts:	1325, 13211	0	0

Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact
 occurring, number of people affected by the impact and any additional environmental consequences if the impact were to
 occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where
 there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse
 environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that
 no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The proposed community solar farm to be located at 176 Bare Hill Road may have significant adverse impacts due to possible glare impacts. During public comments the Board was provided a glare analysis demonstarting significant adverse impact. The Applicant provided a contradicting glare study that concluded there would not be glare impacts. With the contradicting analyses, the Town's experts did not come to a conclusive decision on impacts. Therefore, there may be significant adverse impacts relating to glare.

Determination of Significance - Type 1 and Unlisted Actions						
SEQR Status:	Type 1	Unlisted				
Identify portions of EAF completed for this Project: Part 1			Part 2	Part 3		

Upon review of the information recorded on this EAF, as noted, plus this additional support information
public comments, proposed application and supplement documents, communications from interested parties, and expert consultant memoranda
and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the Town of Malone Town Board as lead agency that:
A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.
B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:
There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).
C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.
